Dear Mr. Weisberg,

It is my hope that by now you have had a chance to review the articles and WAVNO analysis I sent to you last December.

(I met you at your Bridgewater State College talk)

If you have the time I would appreciate any and all comments and criticisms you have on my work. (Especially in re the medical evidence.)

Many unexpected car troubles have shot holes in this months budget but I hope to have extra $ next

month to sent for PHOTOGRAPHIC WHITEWASH. You should be hearing from me.

I just sent a 3+ page article to J.W. Burke (editor of Grassy Knoll Gazette) if you'd like a copy. (on acoustical evidence)

I know you frown upon the newsletters, but I do take my work seriously and do not support theories you term "crazy stuff."

If anything, I'm pretty conservative in my writings.

Hope you are in good health and look forward to a reply if you have the time

Sincerely,

Jeff Hyle
